## MTH-100 Intermediate Algebra (2 Credits)

A study of the real number system, linear equations and inequalities, and systems of linear equations and inequalities intended to better prepare the student for higher levels of mathematics. May not be taken after credit is granted for MTH-105 or above except for change of grade. 2 Semester Hours.

**Requisites:**
None
**Locations:**
Main Campus, Acadeum - College Consortium

## MTH-105 College Algebra (2 Credits)

A study of functions and their graphs, rational expressions, and quadratic equations intended to better prepare the student for higher levels of mathematics. May not be taken after credit is granted for MTH-165 or above except for change of grade. Prerequisite: MTH-100 with a grade of C- or higher, or satisfactory math placement. 2 Semester Hours.

**Requisites:**
Take MTH-100 with a minimum grade of C- or math placement of Level B. - Must be completed prior to taking this course.
**Locations:**
Main Campus, Acadeum - College Consortium

## MTH-119 Quantitative Literacy (4 Credits)

This course will provide and enhance student skills in quantitative methods, reasoning, and problem solving. Topics included are from an array of real-world applicable mathematics including data analysis, probability, financial literacy, voting theory, and graph theory. Students are expected to learn and use basic methods of computation as well as be able to draw conclusions and interpret results. 4 Semester Hours.

**Requisites:**
None
**Locations:**
Main Campus, Acadeum - College Consortium

## MTH-123 Elementary Statistics (4 Credits)

A study of measures useful in giving concise descriptions of masses of numerical data. A brief study of probability theory provides the basis for an introduction to methods of testing hypotheses and measuring the confidence with which conclusions may be drawn by sampling. Historical developments of statistics and probability will be explored as will applications in various fields. Prerequisite: MTH-100 with a grade of C- or higher, or satisfactory math placement. 4 Semester Hours.

**Requisites:**
Take MTH-100 with a minimum grade of C- or math placement of Level C. - Must be completed prior to taking this course.

## MTH-140 Precalculus Mathematics (4 Credits)

A study of topics needed to prepare a student for calculus including polynomial, exponential, and logarithmic functions, graphs, quadratic equations and inequalities, and selected topics from analytic trigonometry and analytic geometry. May not be taken after credit is granted for MTH-141 except for change of grade. Prerequisite: MTH-105 with a grade of C- or higher, or satisfactory math placement. 4 Semester Hours.

**Requisites:**
Take MTH-105 with a minimum grade of C- or math placement of Level C. - Must be completed prior to taking this course.

## MTH-141 Calculus I (4 Credits)

A study of limits, continuity, differentiation, and an introduction to the indefinite and definite integrals. Includes applications to optimization problems, related rates and the Fundamental Theorem of Calculus. May not be taken after credit is granted for MTH-142 except for change of grade. Prerequisites: MTH-140 with a grade of C- or higher or satisfactory math placement for MTH-141. 4 Semester Hours.

**Requisites:**
Take MTH-140 with minimum grade of C- or math placement of Level D. - Must be completed prior to taking this course.

## MTH-302 College Geometry and History (4 Credits)

An informal introduction to the concepts and principles of Euclidean geometry in two and three dimensions. Geometric software will be used to explore geometric ideas and their applications in real-world contexts. Topics will include the history of mathematics from antiquity through the present time. Contributions by various individuals and cultures will be examined. Both European and non-European contributions to the development of mathematics will be explored, with an emphasis on the interrelationship between mathematics and the culture of the time. Typically offered in the fall semester of even-numbered years. Prerequisite: MTH-142. 4 Semester Hours.

**Requisites:**
Take MTH-142. - Must be completed prior to taking this course.

## MTH-460 Senior Seminar (1 to 2 Credits)

This course will be taken with one of the following topics of emphasis: Mathematics Education, Pure Mathematics, Applied Mathematics, Statistics, or Financial Mathematics. This course is required of all mathematics majors and is normally taken during the senior year. Students will be required to do a comprehensive review of their major area of study, a research project, and a presentation, and a research paper. A total of 4 credits must be completed in one or both semesters of the senior year. Prerequisites: Mathematics or financial mathematics major with senior standing, or permission of the instructor. 1-2 Semester Hours.

**Requisites:**
None
