MTH-100 Intermediate Algebra (2 Credits)

A study of the real number system, linear equations and inequalities, and systems of linear equations and inequalities intended to better prepare the student for higher levels of mathematics. May not be taken after credit is granted for MTH 105 or above except for change of grade. 2 Semester Hours.

Requisites:
None
Locations:
Main Campus, Acadeum - College Consortium

View Available Sections for MTH-100

2027 Spring

MTH-100-01
Intermediate Algebra
Runs from 1/11/2027 - 3/5/2027

Seats	Times	Locations	Instructors
24 / 24 / 0	M/W/F 8:45 AM - 9:50 AM 1/11/2027 - 3/5/2027	Main Campus Lecture	Katherine Ritchey (**Lecture**)

MTH-100-02
Intermediate Algebra
Runs from 1/11/2027 - 3/5/2027

Seats	Times	Locations	Instructors
23 / 24 / 0	M/W/F 10:00 AM - 11:05 AM 1/11/2027 - 3/5/2027	Main Campus Lecture	Gerald J. Wuchter (**Lecture**)

MTH-105 College Algebra (2 Credits)

A study of exponents and polynomials, factoring, rational expressions, and quadratic equations intended to better prepare the student for higher levels of mathematics. May not be taken after credit is granted for MTH 140 or above except for change of grade. Prerequisite: MTH 100 with a grade of C- or higher, or satisfactory math placement. 2 Semester Hours.

Requisites:
Take MTH 100 with a minimum grade of C- or math placement of Level B. - Must be completed prior to taking this course.
Locations:
Main Campus, Acadeum - College Consortium

View Available Sections for MTH-105

2027 Spring

MTH-105-01
College Algebra
Runs from 3/15/2027 - 5/5/2027

Seats	Times	Locations	Instructors
24 / 24 / 0	M/W/F 8:45 AM - 9:50 AM 3/15/2027 - 5/5/2027	Main Campus Lecture	Fred Dawson (**Lecture**)

MTH-105-02
College Algebra
Runs from 3/15/2027 - 5/5/2027

Seats	Times	Locations	Instructors
24 / 24 / 0	M/W/F 10:00 AM - 11:05 AM 3/15/2027 - 5/5/2027	Main Campus Lecture	Fred Dawson (**Lecture**)

MTH-119 Quantitative Literacy (3 Credits)

This course will provide and enhance student skills in quantitative methods, reasoning, and problem solving. Topics included are from an array of real-world applicable mathematics including data analysis, probability, financial literacy, voting theory, and graph theory. Students are expected to learn and use basic methods of computation as well as be able to draw conclusions and interpret their results. 3 Semester Hours.

Requisites:
None
Locations:
Main Campus, Acadeum - College Consortium

Quantitative Literacy

Seats	Times	Locations	Instructors
26 / 26 / 0	M/W/F 8:45 AM - 9:35 AM 1/11/2027 - 5/5/2027	Main Campus Lecture	Erin Hargett (**Lecture**)

MTH-119-02
Quantitative Literacy

Seats	Times	Locations	Instructors
23 / 24 / 0	M/W/F 10:00 AM - 10:50 AM 1/11/2027 - 5/5/2027	Main Campus Lecture	Erin Hargett (**Lecture**)

MTH-119-03
Quantitative Literacy

Seats	Times	Locations	Instructors
24 / 24 / 0	M/W/F 12:30 PM - 1:20 PM 1/11/2027 - 5/5/2027	Main Campus Lecture	Douglas Henry (**Lecture**)

MTH-119-04
Quantitative Literacy

Seats	Times	Locations	Instructors
18 / 20 / 0	M/W/F 11:15 AM - 12:05 PM 1/11/2027 - 5/5/2027	Main Campus Lecture	Erin Hargett (**Lecture**)

MTH-123 Elementary Statistics (3 Credits)

A study of measures useful in giving concise descriptions of numerical data. A brief study of probability theory provides the basis for an introduction to methods of testing hypotheses and measuring the confidence with which conclusions may be drawn by sampling. Applications in various fields will be explored. Prerequisite: MTH 100 with a grade of C- or higher, or satisfactory math placement. 3 Semester Hours.

Requisites:
Take MTH-100 with a minimum grade of C- or math placement of Level B. - Must be completed prior to taking this course.
Locations:
Main Campus, Acadeum - College Consortium

MTH-125 Elementary Discrete Math (3 Credits)

An introduction to discrete mathematics. Topics include logic and proof, sequences and sets, elementary probability, functions, mathematical induction, recurrence relations, graphs and trees, and matrix manipulation. Prerequisite: MTH 105 with a grade of C- or higher, or satisfactory math placement. 3 Semester Hours.

Requisites:
Take MTH-105 with a minimum grade of C- or math placement of Level C. - Must be completed prior to taking this course.
Locations:
Main Campus, Acadeum - College Consortium

Elementary Discrete Math

Seats	Times	Locations	Instructors
23 / 24 / 0	M/W/F 1:45 PM - 2:35 PM 1/11/2027 - 5/5/2027	Main Campus Lecture	Katherine Ritchey (**Lecture**)

MTH-140 Precalculus Mathematics (4 Credits)

A study of topics needed to prepare a student for calculus including polynomial, exponential, and logarithmic functions, graphs, quadratic equations and inequalities, and selected topics from analytic geometry and trigonometry. May not be taken after credit is granted for MTH 141 except for change of grade. Prerequisite: MTH 105 with a grade of C- or higher, or satisfactory math placement. 4 Semester Hours.

Requisites:
Take MTH-105 with a minimum grade of C- or math placement of Level C. - Must be completed prior to taking this course.

MTH-140-01
Precalculus Mathematics

Seats	Times	Locations	Instructors
37 / 40 / 0	M/W/F 1:45 PM - 2:50 PM 1/11/2027 - 5/5/2027	Main Campus Lecture	Sherri Brugh (**Lecture**)

MTH-141 Calculus I (4 Credits)

A study of limits, continuity, differentiation, and an introduction to the indefinite and definite integrals. Includes applications to optimization problems, related rates and the Fundamental Theorem of Calculus. May not be taken after credit is granted for MTH 142 except for change of grade. Prerequisites: MTH 140 with a grade of C- or higher or satisfactory math placement for MTH 141. 4 Semester Hours.

Requisites:
Take MTH-140 with minimum grade of C- or math placement of Level D. - Must be completed prior to taking this course.
Locations:
Main Campus, Acadeum - College Consortium

Calculus I

Seats	Times	Locations	Instructors
23 / 24 / 0	M/W/F 8:45 AM - 9:50 AM 1/11/2027 - 5/5/2027	Main Campus Lecture	Sherri Brugh (**Lecture**)

MTH-141-02
Calculus I

Seats	Times	Locations	Instructors
20 / 24 / 0	M/W/F 10:00 AM - 11:05 AM 1/11/2027 - 5/5/2027	Main Campus Lecture	Sherri Brugh (**Lecture**)

MTH-142 Calculus II (4 Credits)

A continued study of techniques and applications of integration and study of the calculus of infinite series, polar coordinates and parametric equations. Also includes an introduction to differential equations. Prerequisite: MTH 141 with a grade of C- or higher. 4 Semester Hours.

Requisites:
Take MTH 141 with a minimum grade of C- - Must be completed prior to taking this course.
Locations:
Main Campus, Acadeum - College Consortium

MTH-205 Intro to Probability and Stats (2 Credits)

This course provides an introduction to the use of probability and statistics in engineering. Topics include descriptive statistics, simple regression, probability, continuous probability distributions, point estimation, confidence intervals, hypothesis tests, and risk assessment. Prerequisite: MTH-142. 2 Semester Hours.

Requisites:
Take MTH-142 - Must be completed prior to taking this course.
Locations:
Main Campus

Intro to Probability and Stats
Runs from 1/11/2027 - 3/5/2027

Seats	Times	Locations	Instructors
11 / 35 / 0	M/W/F 12:30 PM - 1:35 PM 1/11/2027 - 3/5/2027	Main Campus Lecture	David Gothard (**Lecture**)

MTH-223 Intermediate Statistics (3 Credits)

This second course in statistics will emphasize statistical computation and applications in various fields, modeling, and visualization for real data sets. Topics include multiple regression with diagnostics, one-way and multi-way analysis of variance, and analysis of categorical data. Prerequisites: MTH 123 or MTH 200, or permission of instructor for students who have had exposure to statistical hypothesis testing. 3 Semester Hours.

Requisites:
Take MTH-123 or MTH-200 - Must be completed prior to taking this course.
Locations:
Main Campus, Acadeum - College Consortium

MTH-235 Topics in Linear Algebra (1 Credits)

An intensive exploration of topics in linear algebra that are pertinent to students in STEM. Topics include matrix operations, matrix inverses, determinants, and eigenvalues. Prerequisite: Complete one of the following: MTH 140, MTH 141, MTH 142, MTH 241 or math placement of Level D. Cannot be taken after credit has been earned in MTH 322. 1 Semester Hour.

Requisites:
Complete one of the following MTH-140, MTH-141, MTH-142, MTH-241 or math placement of Level D. - Must be completed prior to taking this course.
Locations:
Main Campus

Advanced Math Number Theory

Seats	Times	Locations	Instructors
23 / 24 / 0	M/W/F 8:45 AM - 9:35 AM 1/11/2027 - 5/5/2027	Main Campus Lecture	Gerald J. Wuchter (**Lecture**)

MTH-335 Differential Equations (3 Credits)

A study of the theory and techniques of the solution of ordinary differential equations with applications in the sciences. Topics will include separable, first-order linear, exact and homogeneous equations. Methods will include the use of integrating factors, the method of undetermined coefficients, variation of parameters, and Laplace Transforms. Prerequisite: MTH 142 with a C- or better. 3 Semester Hours.

Requisites:
Take MTH-142 with a minimum grade of C- - Must be completed prior to taking this course.
Locations:
Main Campus, Acadeum - College Consortium

MTH-460 Senior Seminar (0 Credits)

This course will be taken with one of the following topics of emphasis: Mathematics Education, Pure Mathematics, Applied Mathematics, Statistics, or Financial Mathematics. This course is required of all mathematics and financial mathematics majors. This course has as its requirements the completion of a senior research project which will be communicated to the department in either a poster or a presentation, and a research paper. Prerequisites: Mathematics or financial mathematics major with senior standing, or permission of the instructor. 0 Semester Hours.

Requisites:
None
Locations:
Main Campus
