## MTH-100 Intermediate Algebra (2 Credits)

A study of the real number system, linear equations and inequalities, and systems of linear equations and inequalities intended to better prepare the student for higher levels of mathematics. May not be taken after credit is granted for MTH 105 or above except for change of grade. 2 Semester Hours.

**Requisites:**
None
**Locations:**
Main Campus

## MTH-105 College Algebra (2 Credits)

A study of exponents and polynomials, factoring, rational expressions, and quadratic equations intended to better prepare the student for higher levels of mathematics. May not be taken after credit is granted for MTH 140 or above except for change of grade. Prerequisite: MTH 100 with a grade of C- or higher, or satisfactory math placement. 2 Semester Hours.

**Requisites:**
Take MTH 100 with a minimum grade of C- or math placement of Level B. - Must be completed prior to taking this course.
**Locations:**
Main Campus, Acadeum - College Consortium

## MTH-119 Quantitative Literacy (4 Credits)

This course will provide and enhance student skills in quantitative methods, reasoning, and problem solving. Topics included are from an array of real-world applicable mathematics including data analysis, probability, financial literacy, voting theory, and graph theory. Students are expected to learn and use basic methods of computation as well as be able to draw conclusions and interpret their results. 4 Semester Hours.

**Requisites:**
None
**Locations:**
Main Campus, Acadeum - College Consortium

## MTH-121 Data Analysis (2 Credits)

A study of graphical and numerical methods for describing data, counting methods, probability, distributions of data, and data interpretation. Prerequisite: MTH 100 with a grade of C- or higher, or satisfactory math placement. May not be taken after credit is granted for MTH 123 or above, except for change of grade. 2 Semester Hours.

**Requisites:**
Take MTH-100 with a minimum grade of C- or math placement of Level B. - Must be completed prior to taking this course.

## MTH-123 Elementary Statistics (4 Credits)

A study of measures useful in giving concise descriptions of masses of numerical data. A brief study of probability theory provides the basis for an introduction to methods of testing hypotheses and measuring the confidence with which conclusions may be drawn by sampling. Historical developments of statistics and probability will be explored as will applications in various fields. Prerequisite: MTH 105 with a grade of C- or higher, or satisfactory math placement. 4 Semester Hours.

**Requisites:**
Take MTH-105 with a minimum grade of C- or math placement of Level C. - Must be completed prior to taking this course.

## MTH-130 Calculus Lab (1 Credits)

Provides co-requisite support for students while they are enrolled in MTH 141 Calculus I. Emphasis will be placed on skills needed for calculus, with just-in-time review of algebra, trigonometry, and logarithms. May not be taken after credit is granted for MTH 141 except for change of grade. S/U. Prerequisite: Satisfactory math placement. Co-requisite: MTH 141. 1 Semester Hour.

**Requisites:**
Take MTH-141 - Must be taken at the same time as this course.

Math placement of Level D. - Must be completed prior to taking this course.
**Locations:**
Main Campus

## MTH-141 Calculus I (4 Credits)

A study of limits, continuity, differentiation, and an introduction to the indefinite and definite integrals. Includes applications to optimization problems, related rates and the Fundamental Theorem of Calculus. May not be taken after credit is granted for MTH 142 except for change of grade. Prerequisites: MTH 140 with a grade of C- or higher or satisfactory math placement for MTH 141.

4 Semester Hours.

## MTH-460 Senior Seminar (1 to 2 Credits)

This course will be taken with one of the following topics of emphasis: Mathematics Education, Pure Mathematics, Applied Mathematics, Statistics, or Financial Mathematics. This course is required of all mathematics and financial mathematics majors. This course has as its requirements the completion of a senior research project which will be communicated to the department in either a poster or a presentation, and a research paper. A total of two credits must be completed in one or both semesters of the senior year. Prerequisites: Mathematics or financial mathematics major with senior standing, or permission of the instructor. 1-2 Semester Hours.

**Requisites:**
None
