MTH-100 Intermediate Algebra (2 Credits)

A study of the real number system, linear equations and inequalities, and systems of linear equations and inequalities intended to better prepare the student for higher levels of mathematics. May not be taken after credit is granted for MTH 105 or above except for change of grade. 2 Semester Hours.

Requisites:
None
Locations:
Main Campus

2021 Summer

MTH-100-01
Intermediate Algebra
Runs from 5/17/2021 - 6/27/2021

Seats	Times	Locations	Instructors
15	5/17/2021 - 6/27/2021	Main Campus, Online ONLINE Online	Douglas Henry

MTH-105 College Algebra (2 Credits)

A study of exponents and polynomials, factoring, rational expressions, and quadratic equations intended to better prepare the student for higher levels of mathematics. May not be taken after credit is granted for MTH 140 or above except for change of grade. Prerequisite: MTH 100 with a grade of C- or higher, or satisfactory math placement. 2 Semester Hours.

Requisites:
Take MTH 100 with a minimum grade of C- or math placement of Level B. - Must be completed prior to taking this course.
Locations:
Main Campus

MTH-105-01
College Algebra
Runs from 7/6/2021 - 8/15/2021

Seats	Times	Locations	Instructors
6	7/6/2021 - 8/15/2021	Main Campus, Online ONLINE Online	Douglas Henry

MTH-123 Elementary Statistics (4 Credits)

A study of measures useful in giving concise descriptions of masses of numerical data. A brief study of probability theory provides the basis for an introduction to methods of testing hypotheses and measuring the confidence with which conclusions may be drawn by sampling. Historical developments of statistics and probability will be explored as will applications in various fields. Prerequisite: MTH 105 with a grade of C- or higher, or satisfactory math placement. 4 Semester Hours.

Requisites:
Take MTH-105 with a minimum grade of C- or math placement of Level C. - Must be completed prior to taking this course.
Locations:
Main Campus, Acadeum - College Consortium

MTH-141 Calculus I (4 Credits)

A study of limits, continuity, differentiation, and an introduction to the indefinite and definite integrals. Includes applications to optimization problems, related rates and the Fundamental Theorem of Calculus. May not be taken after credit is granted for MTH 142 except for change of grade. Prerequisites: MTH 140 with a grade of C- or higher, or satisfactory math placement for MTH 130 (must take MTH 141 and MTH 130 concurrently), or satisfactory math placement for MTH 141. 4 Semester Hours.

Requisites:
Take MTH-140 with minimum grade of C- or math placement of Level D (must take MTH 141 and MTH 130 concurrently) or math placement of Level E. - Must be completed prior to taking this course.
Locations:
Main Campus, Acadeum - College Consortium

MTH-141-01
Calculus I
Runs from 5/17/2021 - 6/6/2021

Seats	Times	Locations	Instructors
11	5/17/2021 - 6/6/2021	Main Campus, Online ONLINE Online	Gerald J. Wuchter

MTH-142 Calculus II (4 Credits)

A continued study of techniques and applications of integration and study of the calculus of infinite series, polar coordinates and parametric equations. Also includes an introduction to differential equations. Prerequisite: MTH 141 with a grade of C- or higher. 4 Semester Hours.

Requisites:
Take MTH 141 with a minimum grade of C- - Must be completed prior to taking this course.
Locations:

Main Campus, Acadeum - College Consortium

MTH-241 Calculus III (4 Credits)

A study of vectors and vector analysis, functions of two or more variables, partial derivatives, multiple integrals, line and surface integrals, and Green's Theorem. Prerequisite: MTH 142 with a grade of C- or better. 4 Semester Hours.

Requisites:
Take MTH-142 with a minimum grade of C- - Must be completed prior to taking this course.
Locations:
Main Campus, Acadeum - College Consortium
